Alliance CCT - The Alliance for Child Welfare Excellence provides training for all caregivers and those who work in the foster care system. They develop and teach the Core Caregiver Training (CCT). This training is provided in-person or online. All the agencies accept the Alliance CCT, except for Olive Crest. Each private agency has a different way of offering this course to those going through the licensing process. Learn more at allianceforchildwelfare.org

BRS - Behavioral Rehabilitation Services are also referred to as Therapeutic or Treatment Foster Care. These are extra services provided for foster kids with bigger behaviors.
